Mesh Driveway Gates

Specification Sheet
SPC-MESH-002A

Secure Vehicle Access for Your Perimeter

Streamline your wider entryways and elevate your facility with the ultimate balance of site security, clear visibility, and expansive access using our Welded Wire Double Leaf Gate Series.

Engineered for owners demanding versatile access control—from everyday pedestrian movement to accommodating commercial vehicles and large equipment—these dual-swing gates serve as the cornerstone of a secure perimeter.

Built with rigid frames and a durable open mesh design to endure continuous outdoor exposure, the precision-aligned dual leaves withstand the repeated cycles of high-traffic environments.

Key Features

- Structural Integrity
  (Heavy-duty steel construction provides superior strength)
- Corrosion Defense
  (Galvanized steel with a powder coating for superb resilience)
- Controlled Vehicle Access
  (Creates clearly defined and secure entry points)
- High Visibility
  (Open mesh design maintains clear sight lines)
- Perfect Integration
  (Designed to work with welded wire mesh fence panels & posts)

Suitable For

- Industrial Plants & Distribution Hubs
- Educational Campuses
- Utility Substations
- Parks and Sports Complexes
- Commercial Storage Centers

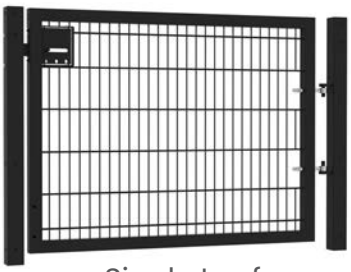
Choose Your Style

Our Welded Mesh Gates come as Walk or Driveway Style

Our **Single Leaf Gates (Walk)** are ideal for pedestrian entry or tight walkways, delivering a streamlined and space-efficient access solution.

For broader openings—such as driveways, vehicle entry points, or service access routes—our **Double Leaf Gates (Driveway)** provide a wider clearance and enhanced versatility.

Both options are constructed from the same durable, high-strength steel and can be equipped with a range of locking systems, allowing you to tailor security to your exact requirements.



Single Leaf

Double Leaf

All welded mesh gates are available as **bolt-down** and **dig-in** formats to suit hard and softer ground substances.

Gate Hanging Side: Universally handed

Post Type:	Square Tube
Material:	Galvanized Steel
Finish/Color:	Black Polyester Powder Coated

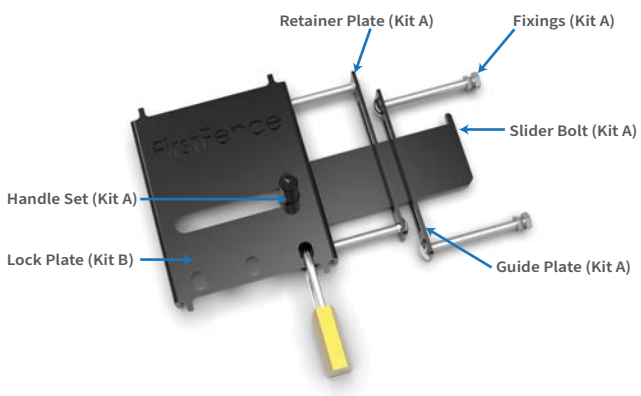
Twin Wire Mesh Driveway Gate	10′ (118-1/8″)	16′ (196-7/8")	4″ X 4″	005-000233

Unislide Kit



Slider Bolt: Slides in and out of the gate frame, securing the gate in the locked position with a padlock.

Handle Set: Used to move the slider in and out.

Lock Plate: Prevents footholds and enables padlock use. Double kit has a blank plate for second leaf.

Retainer Plate: For the outer edge of the primary leaf to help stabilise the slider bolt when in use.

Guide Plate: For the outer edge of secondary leaf/catch post. Receives the slider bolt in closed position.

Fixings: M8 Bolts & Nuts.
