Carriage Bolt and Nut

Specification Sheet

SPC-CHAIN-008A

Carriage Bolt and Nut

The Chain Link Fencing Carriage Bolt and Nuts are precision-engineered fasteners designed for the secure assembly of residential and light commercial fencing systems. They offer the perfect clearance for connecting rail ends to rail end bands or attaching tension bands to gate frames without excess threading protruding significantly. The inclusion of the square neck under the rounded head is a hallmark of the carriage style, allowing the bolt to self-lock into the square holes of standard bands.
