Galvanized Industrial Drop Rod

Specification Sheet

SPC-CHAIN-041A

Galvanized Industrial Drop Rod

The Chain Link Galvanized Industrial Drop Rod is an indispensable security component designed for stabilizing large-scale access points. This heavy-duty assembly is the foundation of a secure chain link double gate system. It functions by anchoring one leaf of a double drive gate directly into the ground, providing a rigid stationary point that allows the active leaf to latch securely against it. Without this robust anchor, double gates are susceptible to swaying in high winds and can easily be forced open, compromising the security of the entire facility.

Key Features

☉ **Material Type**

Galvanized Steel

☉ **Compatibility**

The galvanized chain industrial drop rod is used to anchor a leaf of a double swing gate, providing a stationary point for the other leaf to latch on to

☉ **Size**

Length	Diameter	Product Code
7 foot	1-5/8"	008-000037

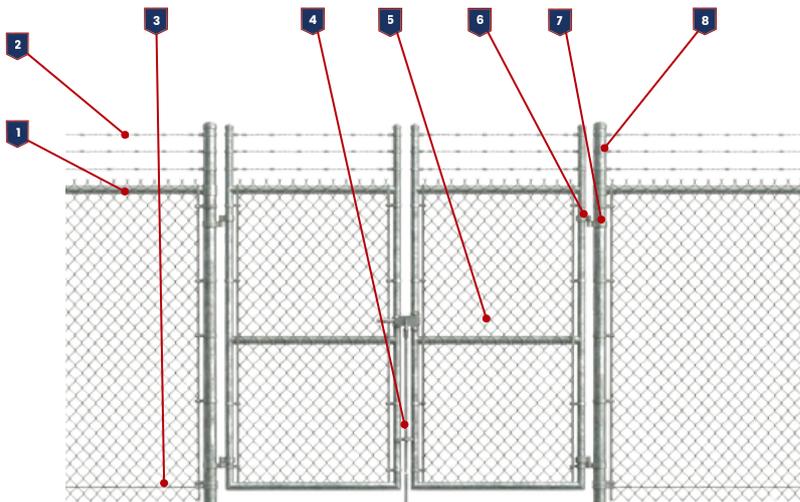

Suitable For

- ☉ Commercial Chain Link Fencing
- ☉ Commercial Chain Link Swing Gates

Other Components to Consider:

Note: Product / Specification Ref

- 1 Commercial Top Rail / SPC-CHAIN-0025A
- 2 Barbed Wire / SPC-CHAIN-42A
- 3 High Tensile Wire / SPC-CHAIN-043A
- 4 **Industrial Drop Rod / SPC-CHAIN-041A**
- 5 Commercial Walk Gate / SPC-CHAIN-029A
- 6 Female Hinge / SPC-CHAIN-033A
- 7 Male Hinge / SPC-CHAIN-032A
- 8 Barbed Wire Arms:
 - Corner Barbed Arm / SPC-CHAIN-010A
 - Barbed Arm / SPC-CHAIN-011A
 - Vertical Barbed Arm / SPC-CHAIN-012A
 - Y Barbed Arm / SPC-CHAIN-013A
 - Y Barbed Arm / SPC-CHAIN-014A
 - Universal Barbed Arm / SPC-CHAIN-010A
