# Chain Link Commercial Line Post

## Specification Sheet

SPC-CHAIN-026A

## Chain Link Commercial Line Post

The Chain Link Fencing Commercial Top Rail Swaged is a vital structural component designed to establish a rigid and durable perimeter for high-traffic or industrial areas. As the horizontal support running along the top of the fence fabric, this rail provides the essential tension required to prevent the mesh from sagging or bowing over time. Engineered for commercial applications, it features a heavy-duty profile that withstands significant impact and environmental stress, ensuring a secure boundary superior to standard residential tubing.

### Key Features

#### Material Type

Galvanized Steel

#### Compatibility

The Chain Link Fencing Commercial Line Post is a key component for your Chain Link Fence, providing vertical stability and supporting the chain link fabric between the top rails.
