# Chain Link Commercial Fork Latch

## Specification Sheet

SPC-CHAIN-031A

## Chain Link Commercial Fork Latch

The Chain Link Commercial Fork Latch is the definitive locking solution for securing single leaf swing gates in industrial settings. This latch is designed to keep gates firmly closed against wind loads and unauthorized pressure. It serves as a vital component for facilities requiring reliable access control, such as storage yards and commercial compounds. By providing a solid connection between the gate and the post, it ensures the integrity of any commercial chain link system remains uncompromised when the facility is locked down.
