Commercial Aluminum Gates

Specification Sheet

SPC-ALU-004A

FIRST FENCE USA
WE LISTEN. WE CARE. WE DELIVER

Premium Aluminum Gates. Precision Manufactured. Engineered Quality.

The First Fence professional commercial aluminum gate systems are designed to provide robust perimeter security while maintaining the polished, welcoming aesthetic required for corporate and retail environments. Engineered specifically for high-traffic business applications, these solutions ensure a seamless flow for employees, delivery services, and visiting clients, effectively eliminating bottlenecks at critical entry points.

Key Features

- Commercial-Grade Longevity**
 High-strength aluminum alloy ensures superior integrity and a polished, corrosion-free professional appearance.
- Security-Enhanced Pickets**
 Reinforced 18-gauge 3/4" pickets provide exceptional defense against impact and forced entry to secure business assets.
- High-Traffic Structural Engineering**
 Rigid 14-gauge 1-1/4" rails prevent sagging to ensure reliable performance at high-traffic commercial entrances.
- Tamper-Resistant Welded Construction**
 Fully welded construction delivers maximum stability and tamper resistance to withstand rigorous daily use.
- Adaptive Site Integration**
 Universally handed for versatile installation, this design integrates seamlessly with your existing security perimeter.

Suitable For

- High-Volume Parking Access
- Industrial & Warehouse Perimeters
- Corporate Campus Entrances
- Multi-Family & HOA Communities
- Secured Logistics & Fleet Yards
- Educational & Municipal Facilities
- Retail & Hospitality Boundaries
- Restricted Utility & Data Sites

Three Styles Available from Stock

2 Rail Flat Top

- Open design ensures clear sightlines for security cameras and monitoring.
- Minimalist lines maintain a sleek, modern corporate appearance.
- A cost-effective solution for securing large industrial perimeters.

3 Rail Flat Top

- Third rail adds critical reinforcement for wider spans and automation.
- Smooth top rail prevents snag points in high-traffic pedestrian zones.
- Substantial visual weight clearly marks facility borders and parking areas.

3 Rail Staggered Spear Flat Top

- Balances elegance with access control for H.O.A.s and corporate sites.
- Interior spears discourage climbing while maintaining a safe, smooth top.
- Distinctive styling projects a high-end, established image.
