NewStead Semi Privacy Vinyl Fencing & Gates

Specification Sheet

SPC-VINYL-003A

Architectural Sophistication. Breathable Seclusion. Timeless Durability.

The NewStead Series is engineered for homeowners who demand the perfect balance of privacy and airflow. Featuring a contemporary horizontal slat design, this system utilizes high-grade, UV-stabilized vinyl to create a robust barrier that resists weathering, fading, and rot. Unlike traditional wood fencing, NewStead delivers a pristine, maintenance-free finish that stands up to the elements for decades.

Key Features

- Premium Vinyl Material**
 Our high-grade, UV-stabilized PVC prevents yellowing and brittleness. This maintenance-free system requires no painting, staining, or sealing to stay looking brand new.
- Balanced Privacy & Airflow**
 The horizontal interlocking slats provide a high-seclusion barrier while allowing for natural breeze and light. This design reduces wind load on the structure without compromising your backyard's security.
- Engineered Structural Rigidity**
 A reinforced 5-inch profile prevents sagging at the full 6-foot height. This heavy-duty construction is built to withstand high wind speeds and impact far better than standard retail kits.
- Streamlined Modular Design**
 A full range of matching 5-inch posts ensures a seamless, professional look for any yard layout, whether you're navigating corners or ending a run.

Suitable For

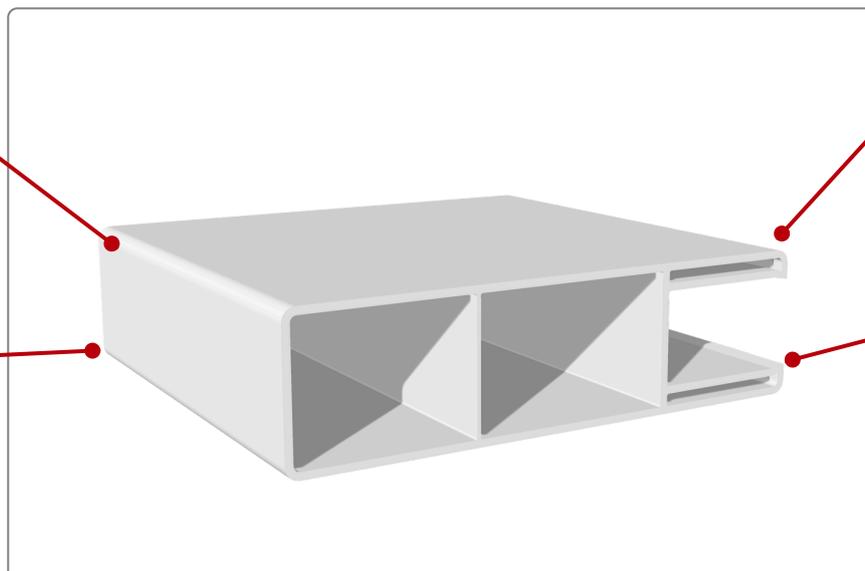

- Residential & HOA Perimeters
- Pool Enclosures
- Dumpster & Utility Screening
- Schools & Day-care Facilities
- Hospitality Courtyards

Engineered for Longevity, Crafted for Sustainability.

First Fence USA's vinyl range represents a breakthrough in material science, combining high-tensile 100% virgin resin with eco-conscious manufacturing. Designed for a lifetime of performance, our panels offer a maintenance-free alternative to wood and metal without compromising on environmental responsibility.

Sustainable Core Technology
 Utilizing calcium carbide synthesis rather than petroleum, our oil-free resin is produced through a pollution-free process. This creates a high-strength core that protects natural resources without sacrificing structural integrity.

Superior UV & Weather Resistance
 Fortified with 10 parts Titanium Dioxide, our 100% virgin vinyl meets ASTM F964 standards. This advanced chemistry prevents blistering, peeling, and rot, ensuring the product never decomposes into the soil.

Zero-Waste Manufacturing
 Our closed-loop system uses injection technology that generates no harmful byproducts. We re-grind all leftover materials and use recycled cooling water to maintain a 100% resource-efficient production cycle.

Maintenance-Free Durability
 Eliminate toxic paints and rust treatments. Unlike wood or metal, our high-quality vinyl requires only simple water cleaning, removing formaldehyde risks while saving trees through a superior life cycle.

SPC-VINYL-003A

Vinyl with Airflow.

Not every vinyl fence has to look the same. Take full advantage of the NewStead privacy fence, featuring equally spaced horizontal slats designed to provide a screen for any yard while still allowing light and air to pass through freely.

Vinyl Lattice Fencing Dimensions

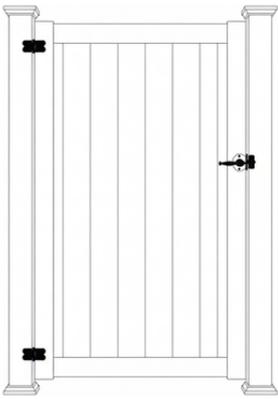

Need to Know:

Each fencing kit includes one line post in the kit. To end a fence run or to create a corner, a separate post must be purchased.

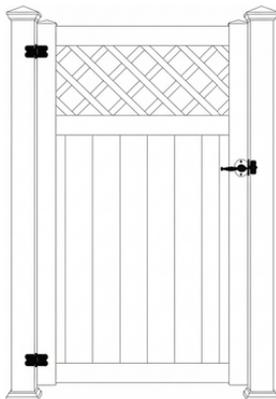

Suitable for Any Style Gate

The NewStead semi-privacy fence works seamlessly with a range of 6-foot gates in the following styles:

Full Privacy Walk Gate

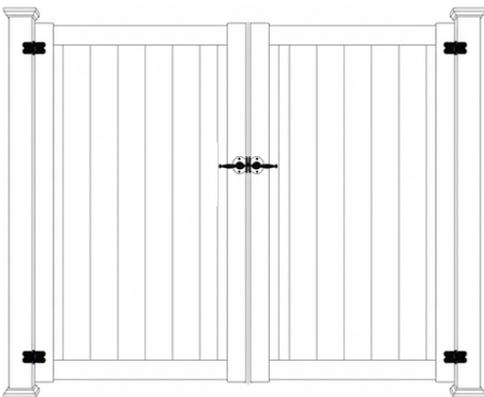

Lattice Top Walk Gate

	SKU	X Width	Y Height
Walk Gates	Full Privacy	003-000052	4' / 48" 6' / 72"

Need to Know:

To ensure your installation goes smoothly, please note that gate posts are sold separately and are not included in the standard fencing kit.

Because every layout is different, you may need "blank" posts (posts without pre-routed holes) to support a standalone gate or to finish a specific run. Purchasing them individually allows you to select the exact post type required for your project's unique configuration.
