FIRST FENCE USA

WE LISTEN. WE CARE. WE DELIVER

NewStead 4 Rail Ranch Vinyl Fencing & Gates

Specification Sheet

SPC-VINYL-007A

Classic Sophistication. Pastoral Elegance. Everlasting Vinyl.

The NewStead Series is engineered for homeowners and property managers who demand the perfect blend of rustic charm and structural integrity. Featuring a classic 4-rail ranch design, this system utilizes high-grade, UV-stabilized vinyl to create a clean, expansive boundary that resists weathering, fading, and rot. Unlike traditional wood rail fencing, NewStead delivers a pristine, maintenance-free finish built to withstand the elements for decades without the need for painting or repairs.

Key Features

- Premium Vinyl Material**
 Our premium, UV-stabilized PVC resists yellowing and brittleness. This completely maintenance-free system eliminates the need for painting, staining, or sealing, even in extreme weather conditions
- Classic Ranch Aesthetics & Visibility**
 The 60-inch tall, 4-rail design creates a clearly defined boundary while preserving an open, unobstructed view of your landscape. Allowing for maximum airflow and natural light, it is perfectly suited for large properties and open spaces.
- Engineered Structural Rigidity**
 With a sturdy 5-inch thickness and reinforced profiles, these 8-foot panels are engineered to prevent sagging. This heavy-duty construction withstands high winds and impacts better than standard retail fence kits.
- Streamlined Modular Design**
 A full range of matching 5-inch "Dig In" posts (Line, End, Corner, and Blank) ensures a seamless, professional look for any layout, whether you are navigating complex perimeters or ending a run.

Suitable For

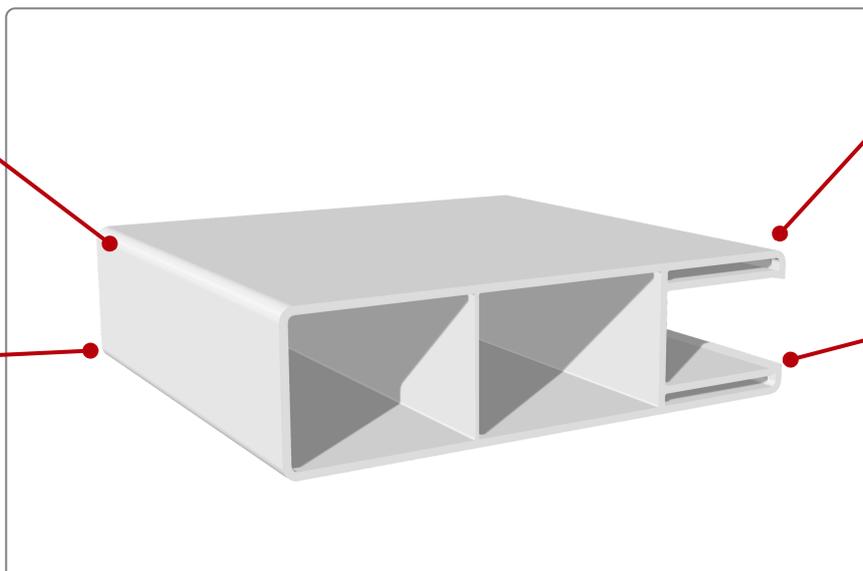

- Ranch and Livestock Yards
- Field Perimeters
- Grass Boundary Fencing
- Residential Perimeter Fencing
- Hospitality Courtyards

Engineered for Longevity, Crafted for Sustainability.

First Fence USA's vinyl range represents a breakthrough in material science, combining high-tensile 100% virgin resin with eco-conscious manufacturing. Designed for a lifetime of performance, our panels offer a maintenance-free alternative to wood and metal without compromising on environmental responsibility.

Sustainable Core Technology
 Utilizing calcium carbide synthesis rather than petroleum, our oil-free resin is produced through a pollution-free process. This creates a high-strength core that protects natural resources without sacrificing structural integrity.

Superior UV & Weather Resistance
 Fortified with 10 parts Titanium Dioxide, our 100% virgin vinyl meets ASTM F964 standards. This advanced chemistry prevents blistering, peeling, and rot, ensuring the product never decomposes into the soil.

Zero-Waste Manufacturing
 Our closed-loop system uses injection technology that generates no harmful byproducts. We re-grind all leftover materials and use recycled cooling water to maintain a 100% resource-efficient production cycle.

Maintenance-Free Durability
 Eliminate toxic paints and rust treatments. Unlike wood or metal, our high-quality vinyl requires only simple water cleaning, removing formaldehyde risks while saving trees through a superior life cycle.

FIRST FENCE USA

WE LISTEN. WE CARE. WE DELIVER

NewStead 4 Rail Ranch Vinyl Fencing & Gates

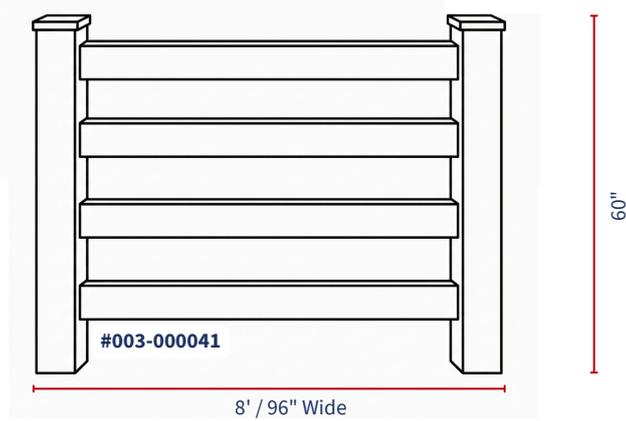

Specification Sheet

SPC-VINYL-007A

Defining Ranch and Open Space Fencing.

The NewStead 4-Rail Ranch Fence is engineered for high-visibility perimeter protection. Featuring sleek, white vinyl rails, this system provides a crisp, clean boundary line for any property. While its classic aesthetic is ideal for agricultural applications and equestrian estates, it is equally effective for defining larger residential or commercial tracts to deter trespassing and guide foot traffic.

Ranch Fencing Dimensions

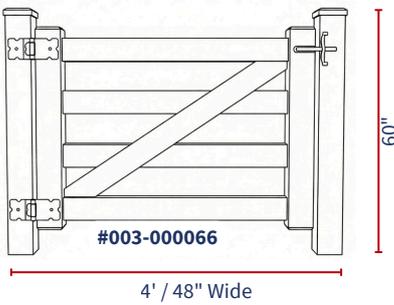

Need to Know:

Each fencing kit includes one line post in the kit. To end a fence run or to create a corner, a separate post must be purchased.

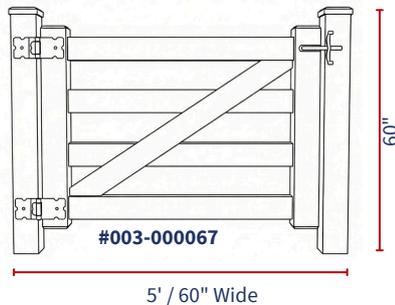

Ranch Gates for Any Application

NewStead Ranch Gates are available in multiple widths to provide convenient pedestrian and vehicle access to your land and pastures. Whether you need a standard walk gate for foot traffic or a wide drive gate for equipment and vehicles, our modular system ensures a secure and seamless entry point that matches your fencing perfectly.

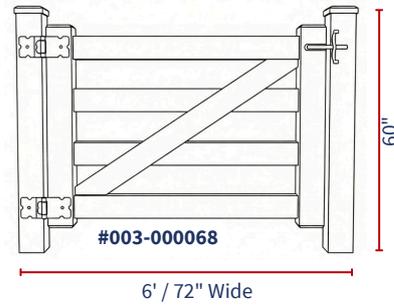

Walk Gates

4' / 48" Wide

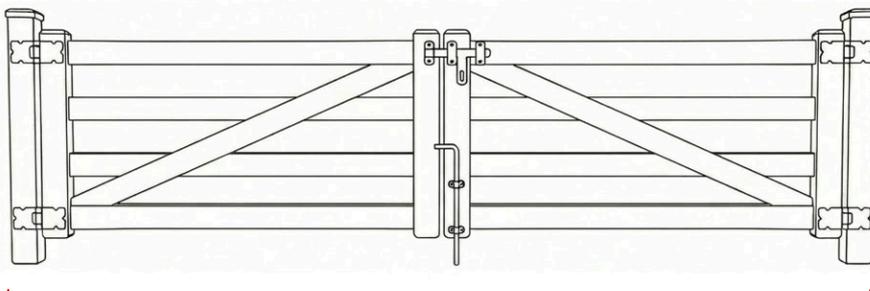

5' / 60" Wide

6' / 72" Wide

Drive Gates

- #003-000099 8' / 96" Wide
- #003-000100 10' / 120" Wide
- #003-000101 12' / 144" Wide

Need to Know:

To ensure your installation goes smoothly, please note that gate posts are sold separately and are not included in the standard fencing kit.

Because every layout is different, you may need "blank" posts (posts without pre-routed holes) to support a standalone gate or to finish a specific run. Purchasing them individually allows you to select the exact post type required for your project's unique configuration.
