Stunning Outdoor Living, Uncompromising Durability

Redefine your backyard and achieve the ultimate balance of low-maintenance ease and timeless sophistication with our Wood Plastic Composite (WPC) Decking Series. Engineered for the homeowner or contractor who demands maximum structural resilience and weather resistance, these boards serve as the premier foundation for a high-end outdoor retreat. Made from a high-density blend of recycled wood fibers and advanced polymers, each deck board is precision-manufactured to resist fading, staining, and the heavy-duty demands of year-round exposure. From our natural, wood-grain textures to our modern, sleek finishes, our composite decking is built to maintain a prestigious aesthetic and a splinter-free, flawless surface for many years.

Key Features

- ⊙ Simple & Fast Installation
- ⊙ Durability & Longevity
Resistant to rot and corrosion, and requires little maintenance
- ⊙ Eco-Friendly

The NewStead Wood Plastic Composite System allows you to build a seamless, professionally-finished outdoor space

Deck Trim

Used for edging and finishing the sides of the deck. Available in Gray, Teak, Chocolate and Charcoal colors. Each trim measures 2" X 2" X 144" long.

Gray	006-000001
Teak	006-000002
Chocolate	006-000003
Charcoal	006-000004

Flat Fascia Trim

Wide boards are used to conceal the substructure or cover the deck's rims for a clean look. Each measures 5-1/2" X 7/16" X 144" long and in colour-matching options.

Gray	006-000005
Teak	006-000006
Chocolate	006-000007
Charcoal	006-000008

Deck Board

The main structural surface. Each board measures 5-11/16" X 7/8" X 144" long. Also available in Gray, Teak, Chocolate and Charcoal.

Gray	006-000009
Teak	006-000010
Chocolate	006-000011
Charcoal	006-000012

Accessories

Starter Clips	006-000012	Screws 16T	006-000014
Screws 32T	006-000015	Deck Board Joining Clips 1/16"-1/8" Gap	006-000016
Deck Board Joining Clips 3/16"-1/4" Gap	006-000017	End Joining Clips	006-000018

NewStead Wood Plastic Composite Decking

Specification Sheet
SPC-COMP-001A

Co-Extrusion Cross Section

Co-Extrusion

The NewSteadWood Plastic Composite Decking ;ine is a high-performance co-extruded WPC product, combining durability and style. Its core, made from recycled bamboo fibres and HDPE plastic, offers the natural look of wood with added strength. A tough 360° polymer cap is co-extruded around the core, fully protecting it and making it far more durable than first-generation, uncapped WPC.
