Venus

Let's make it better together

Motorized gate closer for pedestrian gates and doors

UNIWING-compatible

The Venus is a plug-and-play motorized gate closer for pedestrian swing gates. The compact all-in-one gate operator can easily be installed on any type of post and hinge thanks to 3 different arm types. The innovative motor's performance remains unaffected by manual force. When combined with access control, the Venus also works as a low-energy gate opener.

Venus

Motorized gate closer for pedestrian gates and doors

The VENUS motorized gate closer is specifically designed for pedestrian gates up to 5 ft and 440 lbs.

VENUS is a brushless motor specially designed for semi-manual or fully automated outdoor use.

What makes it special?

- Safe, reliable operation thanks to low-energy speed control and integrated obstacle detection
- All-in-one gate operator with integrated power supply and circuit board, input/output connectors and indicator light
- Easy setup with free mobile app
