Black Universal Gate Slider Handle

Specification Sheet

SPC-HARD-003A

Universal Gate Slider Handle

The Universal Gate Slider Handle is a robust, high-performance accessory designed to drastically improve the manual operation of sliding barrier systems. It offers a substantial, ergonomic grip that ensures safe and easy manoeuvring, even for heavy panels or when wearing thick gloves. Constructed from premium carbon steel, this handle is built to resist deformation under physical stress, providing a reliable grab point for daily use. The exterior features a high-quality coating, ensuring this heavy duty gate latch hardware remains resilient against corrosion, weathering, and rust.

Key Features
