Black Universal Gate Locking Bar Bolt

Specification Sheet

SPC-HARD-004A

Universal Gate Locking Bar Bolt

The Universal Gate Locking Bar Bolt is a high-performance security solution designed to provide robust protection for residential and commercial boundaries. This hardware is an essential component for securing garden entrances, side alleys, and utility enclosures. Its substantial construction offers a significant upgrade over standard hardware, functioning as a reliable heavy-duty gate latch that resists tampering and forced entry. The sleek design integrates seamlessly with various gate styles, ensuring that security does not compromise the visual appeal of your property.

Key Features
