Smartweld Crowd Control Barrier

Specification Sheet
SPC-TEMP-001A

Smartweld Crowd Control Barrier

The Smartweld Crowd Control Barrier is an essential solution for managing gatherings, securing restricted areas, and directing foot traffic at events and job sites. Measuring 7.5 feet in length and 3 feet 7 inches in height, these heavy duty temporary fence panels weigh just 22 lbs. This makes them lightweight for rapid deployment yet incredibly sturdy. Built from premium steel and fully galvanized to prevent rust, this barrier is designed to withstand severe weather and demanding environments.

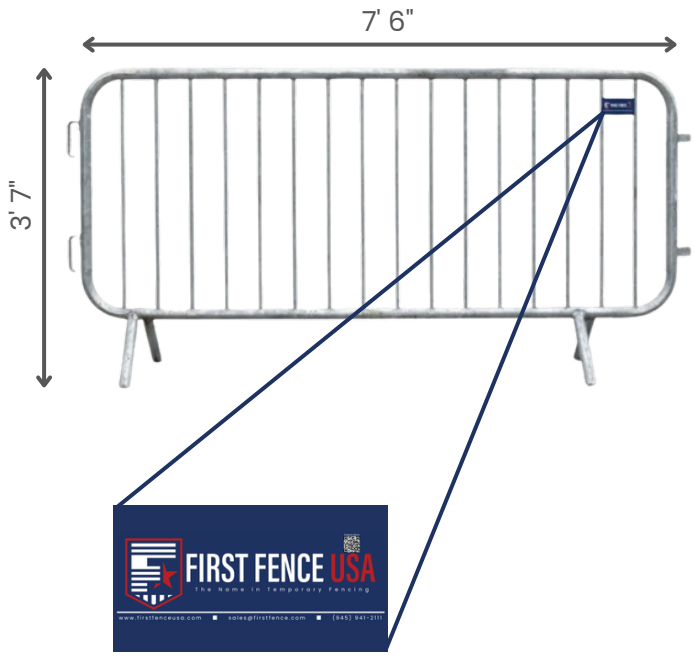

Key Features

- **Manufactured with Smartweld Technology**
  This method creates stronger and more reliable barriers
- **Manufactured from Glavanized Steel**
  Galvanization creates a coating of protection against the elements
- **Easy To Stack**
- **Sturdy Fixed Legs**

Suitable For
